- 9/8 **Vette Rides for Veterans #2.** A chance to "give back" to the veterans who have served our country. We'll hook up with members of the Glass Odyssey Corvette Club at 5PM at a restaurant in Port Orchard then caravan to the Veterans Home in Port Orchard (Retsil). After a short car show display for the vets in front of their Home we'll give the vets, who want to and are able, 10-15 minute rides over a pre-selected route in our Vettes. This was very popular with the vets in prior years. We need all the Vettes we can get to accommodate them this year. CMCS info: Gary@CorvetteMarqueClub.com

28 cars from several area clubs participated in this June event, which was a

big hit with our veterans. Thank you to all that took part.

*On your Marque ...
Get Set ...
Go!*

By Kevin Jewell - CMCS President

I am pleased to announce that we have a new major dealer sponsor. **LEE JOHNSON CHEVROLET** has agreed to become our sponsor. We had an excellent meeting with Tod Johnson and several of his management team. We are mutually excited about the possibilities. While we have club members that live all over this area, Lee Johnson is central to a significant number of our members. Please remember that their dealership is a business and they make business decisions. We need to remind them about our patronage of their business. When you visit for service (whether that be Chevrolet, Mazda or Kia) let them know that you are a member of CMCS and appreciate their sponsorship. If you buy a car there, make sure that sales person knows you are CMCS. As we told Tod, there is no contract between us. It is our sincere hope that after the end of a trial year, management will recognize the involvement of CMCS members in their business. Lee Johnson has designated Bruce Huskinson as our sales contact. I will be working with him to expand on our relationship.

First up in July is our **Member Appreciation Picnic** on July 4th. Who says there is no such thing as a free lunch? Well, here at least you will get part of a free lunch as the club picks up the tab for the burgers, hot dogs, etc. making up the main course. It is potluck, so see elsewhere in the newsletter for the details of what you need to bring for yourself and to share. Many are participating in either the Kirkland or Bothell parades and we expect them to join us after.

Don't forget the second annual **CMCS Mill Creek Show & Shine** on July 7th. This is in conjunction with the Mill Creek Festival, so there is plenty to do for the entire family. It is downtown, so there are many shops and places to eat.

After months of thinking we were out of luck this year, Speedware cancelled one of their dates and **School Daze** has been restored for 2007. The date is July 25th. Never had your Corvette on the track and are a bit intimidated by the thought? Come on out and give it a try. The organizers will provide you with an instructor to ride with you all day. They will show you the correct lines around the course and techniques. You will start relatively slow to learn track driving (which is different in many ways from the street) and gradually increase your speeds as the sessions unfold. You will be in a run group with other novices, all there to learn with you. Probably the most important thing

they will tell you is that “This is not a race, you drive at your own pace, at your own comfort level”. I can think of at least one first timer from last year that is eager to participate this year.

Although **Women Only Weekend (WOW)** is not until Aug 18 & 19, I need to remind you that the hotel room block is removed on July 18th. So, you need to make your reservations at the hotel. Judy and I previewed the course in mid June and the scenery was spectacular. Some great Corvette cruising roads. Grab another club member or a friend outside the club and put this one on your list.

More details on all of these events are elsewhere in the newsletter. Summer is upon us and the calendar is full. Don't let October come and have regrets that you didn't do enough this summer. Now is your chance.

See you on the road.

Seattle in September Five (SIS V)

September 12 -14, 2008

by Michael & Jane Armstrong - SIS Chairs

(206) 439-9823

armstrong@corvettemarqueclub.com

Mark the dates now; you won't want to miss this weekend of fun. The kick-off meeting on June 12th launched our preparations for this premiere event in which our club welcomes others to our community to have fun.

After reviewing SIS IV feedback and summaries, the group selected our date and started to fill in the blanks. At this point, we are fleshing out the ideas to see what will be fun, attractive and affordable.

The feedback was strong to bring back a boat trip so we are researching that. The club had already decided to host a separate autocross event so we dropped that from our weekend agenda and plan to expand the quality and appeal of the road trips (whether they be a poker run, rally, or tour) and of the show & shine. We want to try a new venue. In our next meetings we will select a theme, firm up locations and events, and fill in the blanks. The fourteen people who attended Tuesday's kick-off all put out fun ideas and constructive thoughts to build another great event, to the high standard that CMCS has delivered in the past.

Join us in the fun and details, either with e-mails of ideas, a sidebar at a future club meeting or event, or by coming to a meeting to see what it is all about. Whether it is regular participation in the committee or extra hands along the way, you will be welcome.

Our next meetings will be held at:

Round Table Pizza, Overlake, 15025 NE 24th in Redmond.

The meetings start at **7 pm**. Those who want a bite to eat should arrive about 6:30 pm for pizza or salad bar.

The dates are the third Monday of the next four months:

July 16

August 20

September 17

October 15.

SIS V
September 12-14, 2008

Our first meeting was about an hour in length. Mark dates on your calendar.

Please be sure and mark **September 12-14, 2008**.

Spam: It's Not Just A Lunch Meat
by Bob Bunn

You may be missing some legitimate e-mails from CMCS because of the rising number of SPAM e-mail out there. SPAM, to put it simply, is unsolicited e-mail. Because there is now more SPAM e-mail being sent than legitimate e-mail, systems have been put in place to filter out possible SPAM messages so you don't have to wade through it yourself. The problem with this is some legitimate e-mail can be falsely identified as SPAM.

Several club members have mentioned to me that they were not getting the automated e-mails from the CMCS web site. After further investigation we found that the e-mail was delivered but the SPAM filters had moved it to a junk e-mail folder, which most people do not monitor.

Each e-mail service has its own filter settings so I can only list a few here. Here are some settings you can check for the following popular services:

Yahoo – SpamGuard is the name of their filter. Check out the Bulk folder for legitimate e-mails. If you see one you can mark it as NOT SPAM. Check out the “Edit Settings” link in the Bulk folder for additional options.

GMail – Check out the Spam folder. If you see a legitimate e-mail you can select it and click on the “Not Spam” button.

Hotmail – They have a folder called Junk. You can also go to the Options and add Webmaster@CorvetteMarqueClub.com as a “Safe Sender”.

The bottom line is that you may be missing some legitimate e-mail from CMCS and others. Remember to check your filtered messages and mark them as safe.

"Tour" Radios Now Available Through CMCS

The "business" UHF radios that the Club uses to coordinate tours are now available for purchase from CMCS. This is a new Club courtesy/benefit to make it easier for you to join in the communications during the Club caravans and tours. They are passed to you directly at CMCS cost, which is a significant discount from retail. The "standard model" we stock is the **Motorola XU2600**, a two-watt 6-channel unit that retails for \$350. Club cost is **\$195**. Other models are available through special order. We will also assist you to get them set up for CMCS operations, if you wish, by programming the frequency we use: **467.9000 Mhz** and Interference Frequency **179.9 Hz**. These are UHF frequency radios.

"Family" VHF radios will not work.

You may purchase a radio at CMCS General Meetings or by contacting the CMCS Vice-President Wayne Kanaby.

Be sure and acquire your radio before you intend to use it, to allow time for battery charging and programming.

NOTE: These are commercial/professional quality units, not toys.

Big Rock Classic Car & Cycle Show - Duvall Days by Craig Crummer

This event was a revival of earlier shows that were held at the Duvall Days celebration on Saturday, June 2nd and blew everyone on the committee away with three times the number of cars expected. About 150 beautiful cars, pickups and a dozen motorcycles were registered with sunny skies and temperatures hitting the low 80's in the Safeway parking lot on the south edge of town. Three Corvettes from CMCS were there along with one additional Sting Ray owned by a friend of a friend whom I'm going to work on to join. The show, sponsored by the Duvall Rotary Club and other businesses, raised \$2,300 for charity.

On hand were Michael Armstrong with their '03 Gray coupe, Hal Trask and his '63 Red Split Window coupe and our '96 Torch Red Coupe. Hal ended up with a nice gas card for his place. There was a nice red 1960 there also.

CMCS Newsletters - The Rest of the Story

by **Oran Petersen**

Publishing the CMCS newsletter monthly is no small undertaking.

First Task - Getting everything gathered, which involves inputs from many folks. The “Thank You” credits on the back cover and numerous “bylines” will give you an idea of the scope. Any member is welcome to submit relevant material. Event reports, photos and technical articles are examples. Cover photos/profiles are nice also.

Second Task - Compiling, proofing and printing. Many help with the proofing. We go to some length to assure accuracy and completeness. Compiling and printing is my primary job. Each newsletter requires about 24 “printer hours” to complete. We use 2 Tektronix Phaser 850 solid ink printers for this job. They presently have about 900,000 images printed between them. They crank for a long time. We do between 250 and 320 newsletters each month, depending on the time of year and membership.

Third Task - Assembly and mailing. Each month we have a work party to separate, staple, fold/crease, and apply seals in preparation for mailing. We usually make this into a social event, with dinner and gab accompanying the “work”. A core group of board members and others help with this each month. Ideally we need about 12 folks to make this a short/efficient task. Too few burdens those that do help. Too many can make it hard to manage and coordinate. You are welcome to help if you wish to do a bit for the Club each month. The “parties” are fun, easy and help the Club.

To be added to the assembly party notification list, contact me!

Cover Photos/Member Profiles

Where do the Corvette cover photos come from? From a camera of course! Now that we have that out of our system, let’s discuss what you need to do to get your pride and joy on the cover (assuming your P & J is your Vette).

There are three prerequisites to “make the cover”.

1. A well posed quality digital photograph of your car. Hopefully several shots from different angles. They should be done without a cluttered background and sans people, other cars, distractions, etc.
2. A profile detailing some history and background on the car and on yourselves. This can include your Corvette history and your personal history.
3. A photo of yourselves. We like one of you posing with your car. It will be cropped to show mostly you and a bit of the car.

And as a bonus, the cover photos are also printed in the CMCS calendar. Any member can do it. What are you waiting for? I will be happy to help.

Big Sky 2007 - Event Report

by Tim Cox

Bright and early Friday morning May 25, a bunch of us departed Ken's Truck Stop in North Bend for Montana's Big Sky 2007. Joining Mona and me for the trip was Jack Goodman & Claudia Simmons, Wes Holmes, Craig Turi, Gene Kinnunen, Ken & Jean Fiorentino, Paul & Pat Luczyk, and Ernie & Connie Fletcher. This annual event is held round robin style in various cities in Montana and this year it was Missoula's turn. The Hellgate Corvette Club engineered a 007 "Corvettes Are Forever" show for us and we couldn't wait to get there. After an uneventful Washington crossing we stopped in Post Falls, ID for lunch, where we met up with Pat Colwell. When Mona is in Post Falls she lets me know we're eating at A&W and everyone else decided that was OK with them. Ice cold root beer was just the ticket as the weather was proving to be warm. After telling Ernie he would certainly get his pristine ZR-1 rained on in Idaho, Mother Nature decided it was time we had great weather for a trip through the spud state.

With full bellies and gas tanks we once again headed east where our next stop was the \$10,000 Silver Dollar Bar in Haugen, MT. Unfortunately we couldn't find a fart machine to buy so we didn't stay too long. Missoula beckoned. A few more warm miles on the highway and we were there. Who should we see first thing walking along the road but Tommy Taylor. A quick rebel yell from me let him and everyone else in the county know that CMCS had arrived, or at least the main contingent. Already at the hotel were George & Aida Walden and Paul Mushkin. It was like a big reunion. Checking into the hotel and the event itself was about the smoothest we'd ever experienced. In fact, I had to

tell the organizers that this was probably the most laid back (read—no pressure) event in memory. Everything ran smoothly and never seemed hurried. The one hurry I had, though, was to hoof it first thing to the Chevy dealer across the street for some of Missoula's finest beer, Moose Drool. Most of us ended up there for the remainder of the night as free beer and food tends to make captive participants out of Corvette people. At Karl Tyler Chevrolet the Hellgate Corvette Club brought out a sister event to valve cover racing. They have a similar looking track that's meant for racing Hot Wheels cars. You would buy the car and then taking turns racing one another for a buck a race. While I originally headed over to race I got sidetracked. John Annon from the Tacoma Corvette Club literally hog tied me to go for a ride in his newly acquired Lingenfelter Twin Turbo. OK, I wasn't exactly forced but I had to explain my absence to Mona somehow. After being properly planted in my seat by the turbos and then properly planted into my seat belt by the massive brakes on the car I came back for more Moose Drool. I had already left enough of my own drool on the seat. By the end of the evening I was too tired for 31 but others played and Jack won the only game.

Saturday was heavenly because Mona and I slept in. We sleepily made our way across the street to the Show 'n Shine that was in full force. The weather was still perfect and the cars were gorgeous. Ours was tucked away in the back of the hotel, still buried in the shame of bugs and dirt. While I'm one to normally keep the car clean, it's still a pleasure to get up at one of these events and say "I'm

not doing anything today" and just look at everyone else's hard work. Most of our club cars were over there and we had a fantastic showing when prizes were handed out. Awards were given to Wes, Ernie and Connie, Gene, Ken & Jean, George & Aida, and Pat.

Ken & Jean had sprung their new car on us Friday; a brand new Ron Fellows edition Z06. The car is gorgeous and it also garnered the Best of Show prize. After the show people went on the Missoula rally. While nobody finished in the

money, Mona won by once again playing navigator for Wes. That's a win situation all around. They got to do the rally and I got to continue my veg session. Actually I finally got around to cleaning the car with nobody else around and then went off to see old friends from the city. Dinner Saturday night was a barbecue held down by the river in downtown Missoula. Our tables were far away from the stage but right next to the food so in classic Le Mans style starts, we were pretty much first in line. The food was great and we were soon plied with awards from the earlier car show. It seemed like we stole the show with awards. We all ended up too tired for 31 and ended up calling it a day.

Sunday dawned with two choices—do the autocross or go on the cruise to the old Montana territorial State Prison. While Mona and I were joined by Wes and Jack for the autocross, most others did the cruise. The weather started OK but didn't look promising. The autocross was actually pretty darn good, considering it was really tight in Karl Tyler's parking lot. Gordie from the Hyalite Corvette Club out of Bozeman once again engineered a fun yet safe course. Our only casualty of the day came from someone in a C6 Z06 doing a spirited burnout at start that ended with a broken starting light. After a struggle, some duct tape and glue brought the piece back to a working state and we were off again. In the middle of the autocross we found Michael & Jane Armstrong wandering the area. They were returning from a road trip and stopped to watch the fun. Unfortunately for them a semi truck had decided to change lanes on them around Spokane and had taken a bite out of their backside. Fortunately nobody was hurt except for some fiberglass. Finally, the ever-threatening rain started to arrive in the form of a light sprinkle. Since we were just finishing up with the last of the people to get in a third run the autocross was ended. Nobody wanted to race on the lightly wet track and tangle with any of the many light poles scattered about. By the time the dust settled both Wes and I placed in the money. While the rain was just sprinkles for the autocrossers, those that went to the prison caught the full force of a Montana spring rain. Everybody got dumped on. From what I heard, though, the trip was worth it.

If you're ever traveling through Montana and have some time to kill, a trip to Deer Lodge is well worth your time. There are several other museums, including a car museum, that you gain entry to for the price of one admission ticket.

At the Sunday banquet we were fed once again with great food. This time it was beef and chicken in a buffet. I guess turnabout is fair play as most of us ended up near the end of the food line this time. The wait was worth it.

Monday dawned and Mona and I slept in again...till 7! Some of our members had already fled the city for home and some had more things to do before heading back.

Mona and I were continuing our planned two week road trip that would take us to Mt. Rushmore in South Dakota, Denver for my brother's wedding and back up to Yellowstone Park.

We saw all sorts of weather, especially the scary white stuff—both snow and hail. Suffice it to say that after 3,800 miles we were glad to be back. Believe me, there's no place like home.

Return to the Gorge 2007 - Event Report

by Craig Crummer

While many of you may have remained here in Seattle rain, three from CMCS in two cars decided to spend most of Memorial Day weekend burning premium in the sun with the tops down by joining the Puget Sound British Automotive Society on the ninth running of their annual Car Tour and Rally. We gathered Saturday morning at the Jaguar of Fife dealership for coffee and the drivers' meeting. In the sea of Jaguars, we saw some beautiful car flesh, including Lotus, Bentley, Fiat, Alfa Romeo and a Ferrari. In order to get us assimilated into the group, I disclosed that I was a “domestic defector”, having owned an Alpine and an Austin Healey.

Lorraine and I met a new friend from CMCS, Michael Rapkin from Kirkland (also a former Healey owner), who now drives a beautiful 2006, C6 convertible. The event is open to all cars and each team could choose just to tour on the route or keep time and distance on the three legs (240 miles), attempting to match the elapsed time and distance driven two weeks earlier by event organizer Arnie

Rally Start

Taub. The route took us south through the beautiful back county, skirting Mount Saint Helens and ending at our hotel in Hood River, Oregon. Thirty-seven cars turned in times with at least a dozen more choosing to just enjoy the drive. Our place in elapsed time was nothing to write home to mother about, but we tied for the most accurate mileage driven. Alas, the mileage is used only for a tie breaker, thus no hardware.

As dinner time was fast approaching, I probably blew the elapsed time on my trip down the last mountain grade of rough asphalt. I could no longer stand the endless string of 25 MPH signs, so with Michael on my tail followed by a Mazda and a Mini, we flew down the grade. First place went to Tracy Owen and his son, Matthew, driving a 1976 Triumph TR 6. There seems to be something special about these young navigators.

We dined on prime rib and salmon Saturday night with awards, door prizes and Arnie's jokes. I pressed him on my doubts that he really observed all those 25 MPH signs. Only then did he confess to making the first trip in his Dodge.

The group split up after breakfast on Sunday morning to choose among several routes back. We chose to take Michael along the north rim of the Columbia Gorge to the Maryhill Winery for tasting and their BBQ lunch and a stop at Samuel Hill's Maryhill Museum. Members of the British group showed us fine hospitality and a very well organized event.

14th Annual "Take Me Out To The Ball Game"
with the Everett Aquasox - Saturday August 4th
by Ben Benninghoff

This year "Marques" our club's 14th anniversary outing with the Everett Aquasox baseball team. This outing has been a club favorite over the years giving us another opportunity to show off our Corvettes inside the ballpark while getting 'free' reserved seating along the first base side.

This year we're again going to organize a food drive for the local food bank in Everett while conducting a car show for the fans; kind of a mini 'show-n-shine' where the people attending the game will cast their vote for their favorite car. And how are they going to do that? Glad you asked. Instead of ballots being passed out, the fans will place their non perishable food items in storage bins placed in front of each car. The winner will be the car receiving the most items and/or cash donations where a car will be placed as well so those wishing to make a cash/check donation to the food bank can do so. Somewhere around the 7th or 8th inning an announcement will be made and the trophy awarded to the winner. Talk about a win-win situation, it doesn't get any better than this. So now you have an extra incentive to join in on the fun this year and help others out in the process.

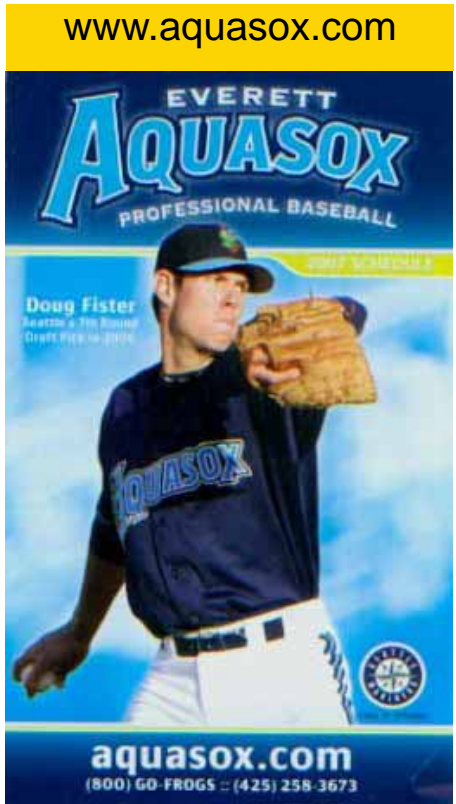

You can begin to arrive at the ballpark after 3 pm but before 5 pm due to traffic, both foot and vehicle traffic at the ballpark. Once parked inside the south fence, break out your picnic baskets on the lawn and eat to your heart's content. All food items must be packed up and put away prior to the gates opening at 6 pm. After that you are welcome to sit in the reserved bleachers along the first base side, mingle with other club members alongside the Corvettes, or go for a bread-bowl filled with hot steamy I var's clam chowder, hot dogs, pretzels, pizza, and ice-cold beer or other beverages of your choice.

food item donations with you.

Anacortes Waterfront Festival - Event Report **by Ken Fiorentino**

The weather was actually good for Washington, a little sprinkle now & then but no heavy rain and we had a token “Sun Break” now & then. Classical Glass put on a good event as usual. The activities for the Waterfront Festival were good with the same theme, many vendors, and a good turnout.

CMCS was represented by the following members: Jim Ezell, who won 2nd place in his class, and Mike Terry, who won 2nd place in his class. Not bad for having only 7 cars at the show. Others in attendance were Ron & Margaret Holly, Byron Crocker, Jay & Jan Cockrum (Classical Glass Members as well as CMCS), Don Gardner, Pat Colwell and Ken & Jean Fiorentino.

Board members present were: Kevin Jewell, Gary Main, Wayne Kanaby, David Ormerod, Al Dager and Chris

vonRavensberg. Cheryal Heppner was not present.

Club Radios: Vice President Wayne Kanaby reported that the club has purchased a couple of Motorola 2 way radios; 2 watt 6 channel available at CMCS cost for \$195 each. We'll keep some in stock.

Secretary's report: The minutes were accepted as published.
